CLUB NEWS :

Juventus

Enthusiastic club committeeman Robert Corradetti has made another contribution to the Club.
His wife had a baby boy last week; a Juventus star of the future, according to Robert.
Meanwhile, the proud Dad carried on with his multi-club activities. He's the baby of the committee, property and equipment organiser, sponsorship ideas man and also match manager and coach for the Under Seventeens and general confidante of team players.
Robert is also trying to fit in the time to get in some actual playing time with the Thirds.

And a possible addition to the Ladies Team of the future. Chris Ward, wife of Bruce gave birth to a bonny, bouncing (Tasmanian) girl during the week - a little sister for Clare - Congratulations.

Juventus is so numerically strong in players in all divisions, it is actually causing some headaches. Several players in the reserves would be virtually first team men in some other teams, but few want to leave their club, even on loan.
It is that sort of loyalty which makes clubs strong.
Peter Brine is naming a twenty six man list as his major squad. The list will help draw the line between definites and hopefuls.
Meanwhile, there are at least three lads in the Under Seventeens almost ready for a trial in senior ranks.
The policy of nurturing homegrown talent up through the various age divisions is beginning to show dividends.
One junior to watch is twelve year old Romeo Frediani.
He has scored thirteen goals in three matches, seven of them last weekend. A real goalkeeper's headache.

CROATIA GLENORCHY

Under 18 Disco

The Club will be holding a disco at the Clubrooms for Under 18's on Friday, 6th May from 8.00 p.m. to 11.30 p.m. Admission charge is $2.00. Cordials, Potato Chips and Sweets are available.

Soccer Dance

Will be held on Saturday, 21st May, 1983 at the Clubrooms - 8.00 p.m. to 1.00 a.m.
Tickets $8.00 single, $16.00 double (can be purchased from all Committee members).
Supper will be provided.
It is very pleasing to see so many supporters at the games and their presence in the Clubrooms after the game is great and is appreciated by both officials and players.

Training News

Who was the person who said our players were unfit and not playing well? He attended training with itchy feet, was given the work-over by Coach in an effort to get him fit for 1st team consideration.
The result - he was walking around Hobart for about three days like an eighty year old pensioner.
No names, but in Spain or Mexico he would be called "El Presedente."
Has been absent from training since, business of course!!?

Grove Road Ground

On Wednesday night was in magnificent condition, and appreciated by players who did not have to locate the ball in the long grass.
Club Stalward, Wally Neads celebrated last week his 39th Wedding anniversary and left the Club early - reason "I'm tired" (No objection from Mum.

FIRST AID

Poisons

Poisons are substances which, when introduced into the body tend to destroy life or impair health.

They may be solid, liquid or gas and introduced into the body by the mouth, ie, swallowed, through the lungs by breathing poisonous gases or fumes or through the skin by absorption or injection.
They may be taken accidentally or deliberately.

Treatment

Protect yourself from being overcome by the poison.
Remove the casualty from the source of danger.
Wash off any poison on the skin.
Arrange to obtain immediate medical aid.
Dilute, eliminate or neutralise the poison.
Dilute the poison if swallowed by giving the casualty several glasses of milk or water.

Induce Vomiting except when the casualty is unconscious or when a corrosive, caustic substance, kerosene or other petroleum product has been taken. Vomiting can be induced by putting your fingers down the casualty's throat or giving syrup of ipecacuanta.
Many poisons can be neutralised by giving an antidote.
If casualty is unconscious do not give fluids, induce vomiting or give an antidote.
Place the casualty in the coma position, assist respiration and the circulation if these have failed or are failing.
Send to hsopital with the casualty the remaining portion of the substance thought to have caused poisoning, any container or any sample of vomitus.
